

# AIR TURBINE GRINDER

## RRI-T3335

The high speed RED ROOSTER RRI-T3335 die grinder is specifically destined for grinding and de-burring with hardmetal burrs on a 3mm shaft. The good torque and power ratio of the turbine motor transmit a stable speed of the shaft, even under loads. This is truly a very lightweight and compact die grinder. Use for moulds and dies but also for non-metallic materials.

### Characteristics:

- Low noise-level by means of integrated exhaust-air muffler.
- On/Off switch in the hose for flexibility of handling the tool.
- Contactless turbine motor ensures long lifetime and low vibration levels.
- This grinder should be used with oil-free air.
