NovaTork®

TORQUE WRENCH 400~2000NM AUMR52000

This torque wrench from NovaTork is made of high-quality aluminum and has a built-in ratchet head. This makes it very lightweight and durable, but above all very pleasant to use. Repositioning or a loose ratchet head is no longer necessary. The solid construction makes it very suitable for higher tightening torques. This AUMR model has an extended handle for ergonomic and safe working.

- Accuracy: +/- 4% at 20% to 100% of capacity
- Clearly readable scale
- Scale division in Nm or Lbft
- Lightweight
- Blocking device prevents inadvertent shifting of the set torque
- Clearly readable decimated scale
- Built-in ratchet head for counterclockwise and clockwise use.
