RED ROOSTER
LEADING IN POWER TOOL SOLUTIONS

# NOSE EXTENSION FOR TRUCK AND BUS WHEELS 61022-GW010

**For professionals who fit tires on trucks and buses on a daily basis, we are introducing a specially developed accessory that fits seamlessly with the RED ROOSTER RRI-BEC090 nutrunners. It allows to use the nut runner even more efficiently and safely in heavy transport:**

- **Easy torque adjustment: the user can easily enter the desired torque via the clear display and the four function keys. The tool stops automatically as soon as the set value is reached.**
- **Safe and versatile operation: one device can be used for multiple truck models without the risk of over- or under-tightening.**
- **Access to dual wheels: the extended nose offers optimum accessibility to both the spindle and the support bracket.**
- **High speed: competitive with conventional pneumatic impact wrenches, but with the advantages of battery use – no hoses, no cables, maximum flexibility around the vehicle.**
- **Improved working environment: the low noise level contributes to a quieter workplace.**
