TIP DRESSER
YNR-8F

Everybody knows of the problems with worn tips when working with spotwelding machines. They produce either poor welds or no welds at all. It reflects the quality and productivity of your work. Of course you can replace the tips for new ones, but it might be a better idea to recondition the worn tips by means of Yokota tip dressers.
Dressing can either be done by the operator by hand (YNR-type) or the tip dressers are integrated into the cycles of a spotwelding robot and programmed according to your own needs and wishes (TDN-type). The Yokota tip dressers do
not only clean the surface, but also the original shape and edges of the tips are restored.

Specifications

Brand	Yokota
RPM	1400
Airconsumption (l/s)	6,7
Weight (kg)	1,2
Direction	R
Electrode capacity	16
Airconnection	PT 1/4"
Airpress max. (MPa)	0,63
Max. jaw capacity (kg)	-
mm A	257
mm B	19,5
mm C	24
Hosediameter (mm)	9,5
Vibration standard	EN ISO 28927-2
Vibration value (m/s²)	4,9
Vibration uncertainty (m/s²)	1
Sound standard	ISO 15744
Sound pressure (dB(A))	80
Sound power (dB(A))	91
Sound uncertainty (dB(A))	3
EAN	8717981179954
