

LONG REACH SCALER 4FT LITE

RRI-4007LR4-LITE

This tool is intended to ergonomically clean a surface. It functions just like a needle scaler / hammer and can be used for applications such as:

- Removal of floor coverings, adhesive layers, tiles and tarpaulin
- Remove rust or paint layers
- Removal of slag in, for example, a laser plasma cutting machine
- Facade cleaning
- Can also be used as a needle scaler with a small adjustment, see the parts drawing.
