

# IMPULSE WRENCH 1/2"

## YLA110E

Yokota impulse wrenches are widely used for tightening jobs in the assembly industry, where accurate torque tolerances are necessary. Impulse tools are light, powerful, small and very importantly, have no kick-back. Pistol model with double chamber airmotor. Extremely low weight and adapted for use with non-lubricated air.

### Specifications

|   |                  |
|---|------------------|
| Brand                                     | Yokota           |
| Bolt capacity (mm)                        | 10 - 12          |
| RPM                                       | 6000             |
| Torque (Nm)                               | 65 - 105         |
| Weight (kg)                               | 1,4              |
| Airconnection                             | PT 1/4"          |
| Airpress max. (MPa)                       | 0,63             |
| Airconsumption fullload (l/s)             | 9,6              |
| mm A                                      | 164              |
| mm B                                      | 26               |
| Hosediameter (mm)                         | 9,5              |
| Square Drive / Hexagon                    | 1/2"             |
| Safety standard                           | EN ISO 11148-6   |
| Air consumption no load (l/s)             | 13,1             |
| Formal Capacity                           | 65 - 105         |
| Formal Serie From                         | 0N0003           |
| Vibration standard                        | EN ISO 28927-2   |
| Vibration value (m/s <sup>2</sup> )       | 3,1              |
| Vibration uncertainty (m/s <sup>2</sup> ) | 1                |
